

Charonne

Bio

Young Parisian duo created in 2016, Charonne was born of a shared passion for music. With influences ranging from hip hop to rock or jazz, they produce tracks regardless of genres, going from house to techno, trying to bring modernity to old sounds.

With Eps on Partisan, Imprints Records and Low Money Music Love, they set the tone of this retro-futurist sound. Their DJ sets at Concrete and around Europe are always something to remember, thanks to a spot on selection, and a contagious energy.
